Nathan Elias, Christina Chakarboul, *Daily Trojan*, "Alone and searching for meaning: Inside USC's 'high-pressure group' problem"

<https://bit.ly/3DNQVrd>

Judges' comment: This piece really meets the moment by digging into a concerning phenomena that has seemingly gained momentum from a crisis of loneliness many young people are grappling with today. The reporters did an outstanding job of exposing the reader to differing, nuanced perspectives of students who feel they've been harassed by "high-pressure" religious groups, and student members who feel called to share their faith with others. The piece prompts the reader to ponder the role of religion and faith-based community in today's secular world.
